DOUBLE A+ HEAVY EQUIPMENT TRAINING LLC

Professional Equipment Training • Operator Evaluation • Workplace-Focused Instruction

TRAINER QUALIFICATION STATEMENT

AARON WILLEY

OWNER / LEAD INSTRUCTOR

Experienced operators. Practical training. Workplace-focused evaluations.

15+ YEARS	5+ YEARS	NCCER CRANE	ON-SITE
Forklift & heavy equipment operating experience	Scissor & aerial lift experience	CERTIFICATION Rubber tire-mounted boom crane	Workplace-centered training

THE EXPERIENCE BEHIND THE TRAINING

Aaron Willey serves as **Lead Operator** for applicable equipment training and operator evaluations. His background combines hands-on equipment experience, workplace awareness, practical instruction, and operator performance evaluation.

- **15+ years** of forklift and heavy equipment operating experience.
- **5+ years** of scissor and aerial lift operating experience.
- **Strong knowledge** of equipment, manufacturer guidelines & safe operating practices.
- **Ability to** observe performance, identify unsafe practices, evaluate competency, and document results.

WHAT EMPLOYERS CAN EXPECT

- Training tailored to the equipment, work environment, and job - not a one-size-fits-all presentation.
- Practical instruction connecting operating principles to real workplace conditions.
- Attention to traffic patterns, blind spots, surfaces/grades, loading areas, overhead hazards, load characteristics, emergency procedures, and site-specific risks.
- Organized documentation to support the employer's training and evaluation process.
- OSHA-aligned, site-specific instruction focused on practical workplace application.

EQUIPMENT TRAINING & EVALUATION FOCUS

EQUIPMENT	TRAINING & EVALUATION FOCUS
FORKLIFTS	Controls • stability • capacity • ramps/slopes • traffic • blind spots • practical evaluation
SCISSOR LIFTS	Operation • stability • load limits • fall protection • surfaces • manufacturer requirements • site hazards
BOOM / AERIAL LIFTS	Controls • stability • load limits • fall protection • positioning • overhead hazards • manufacturer procedures

THE DOUBLE A+ TRAINING APPROACH

01	02	03	04
UNDERSTAND Review equipment, operator experience, job tasks and site conditions.	**TRAIN** Teach principles, hazards, controls and safe operating practices.	**PRACTICE** Reinforce safe operation through workplace-relevant hands-on exercises.	**EVALUATE** Observe performance, provide feedback and document results.

WHY IT MATTERS

Training is tailored to the employer's equipment, workplace conditions, and site requirements - giving employers a qualified training resource and operators practical knowledge they can apply on the job.

QUALIFICATION VERIFICATION

OWNER / LEAD INSTRUCTOR

I attest that the information above accurately represents my training and experience and that I am qualified to provide the equipment training and operator evaluations described in this statement.
